Feed dispensers

Advantages

- Large 10 litre feed capacity
- All metal components are stainless steel
- Suits 55 to 60mm feed tube diameter
- Outlet diameter 76mm
- Overall height 600mm
- Comes with shut-off slide to go around the feed line
- Comes with a stainless steel cable clamp to fix to the trip wire
- Top roller pulley has a stainless steel axle
- UV stable, very good quality.

- There are many poor quality drops on the market which don't last long. This is not one of them. We have tested many types and found this one to tick all the boxes, including a very reasonable price.
